Collaborative activity - Immunological Rangoli Competition

Name of Activity: Immunological Rangoli Competition

Date and time of activity conducted: 27/09/2019 **Target Group:** B. Sc. III year Students

Name of Organizer: Department of Microbiology and Microbiologist Society India.

Short description of activity conducted:

Department of Microbiology and Microbiologist Society, India jointly organized an **Immunological Rangoli competition** for **third year students of Shri Vijaysinha Yadav College, Peth Vadgaon**. For this competition students were instructed to draw any immunological Rangoli by hand in the college within given time span. **Total 15 groups of two students each** were participated in the competition and presented their Rangoli. Rangoli was provided by the department as per the requirement of students.

Assessment of the competition was done by Hon. Mrs. Shobhana Jadhav Madam, Rajaram College and Dr. Vijaya Chavan Madam, Principal of Our College. Best three Rangoli were selected for **National Level Competition held by Microbiologist Society, India**. Photographs forwarded to the Society and our department won **consolation prize for Rangoli competition**.

As third year Microbiology syllabus contains Immunology as a separate paper for study, this competition covered CO of the subject.

X	DSE-50 E Immunology	Acquisition of knowledge of different types of immune cells and organs. Acquisition of knowledge of molecular mechanisms of antibody production, complement system, monoclonal antibody. Aptitude for identification of different hypersensitivity reactions under Gell and Coombs Classification and autoimmunity.
