Department of Microbiology

Report of "Conservation of Plants"

Thursday, 18 April, 2022 at 7.30 am to 9.30 am

Name of the Activity	: Conservation of Tree Plants
Date and Time of activity conducted	: 18 April, 2022, at 7.30 am to 9.30 am
Nature of Activity	: Watering to tree plants
Target Group	: B. Sc. Part- III (Microbiology) Students and Teachers
Number of Participants	: 30 students + 01 Faculty = 31
Name of Organizer	: Department of Microbiology

Short Description of Conducted Activity:

Department of Microbiology, Shri Vijaysinha Yadav College, Peth Vadgaon worked in **Conservation of Tree Plants** at **Mahalaxmi Biodiversity Park, Tasgaon, Maharashtra-416122** on 18st April, 2022, at 7.30 am to 9.30 am. Natural vegetation is a valuable natural resource. It is an important factor to maintaining environmental balance and it is necessary, more than 33 per cent out of total geographical area should be under forest cover. But last few decades proportion of forest is decreasing vary rapidly not only in Maharashtra but also in India. The current scenario of the Kolhapur district and Hatkanangale tehsil showed only 18.47 and 2.35 per cent forested land. As concern to Peth Vadgaon, it has no forest area. Recently as per Govt. directions, 6.52 hectare area has been developed as an 'Oxygen Park' with new endemic species plantation. Considering all these facts our Microbiology department has contributed to sustain these tree plants through watering in hot

summer season. 30 students and 01 departmental faculties participated in watering the plants on Thursday, 18st April, 2022 from 7.30 am to 9.30am.

PO's and PSO's covered:

PO's:

- 1) To aware students about forest resources and environment.
- 2) To sustain new planted tree species through watering.

PSO's:

- 1) The students are aware about forest resources and environment.
- 2) The new planted tree species are sustained through watering
