Details Report: -

The workshop was focused on the importance of modern library and library science. There are four sessions of the function with two technical sessions. Information communication is the key of modern library. The five rules of Ranganathan should follow in the internet age. The opportunities come with ICT knowledge, and skills. This is core thoughts explained by Patil R.R. in the technical session first. Prof. V.D. Khamakar guides in the second session, he expressed the areas, preparation of the job opportunities in library science. The library is the fundamental need of higher education. Any type of the job
