# Google Classroom

The screenshot displays the Google Classroom web interface. At the top, the browser's address bar shows the URL `classroom.google.com/u/0/h`. Below the address bar, the Google Classroom logo is visible on the left, and a user profile icon with the letter 'M' is on the right. The main content area features two navigation tabs: 'To review' and 'Calendar'. Below these tabs, four class cards are displayed in a row. Each card has a colored header (blue or green) and contains the following text:

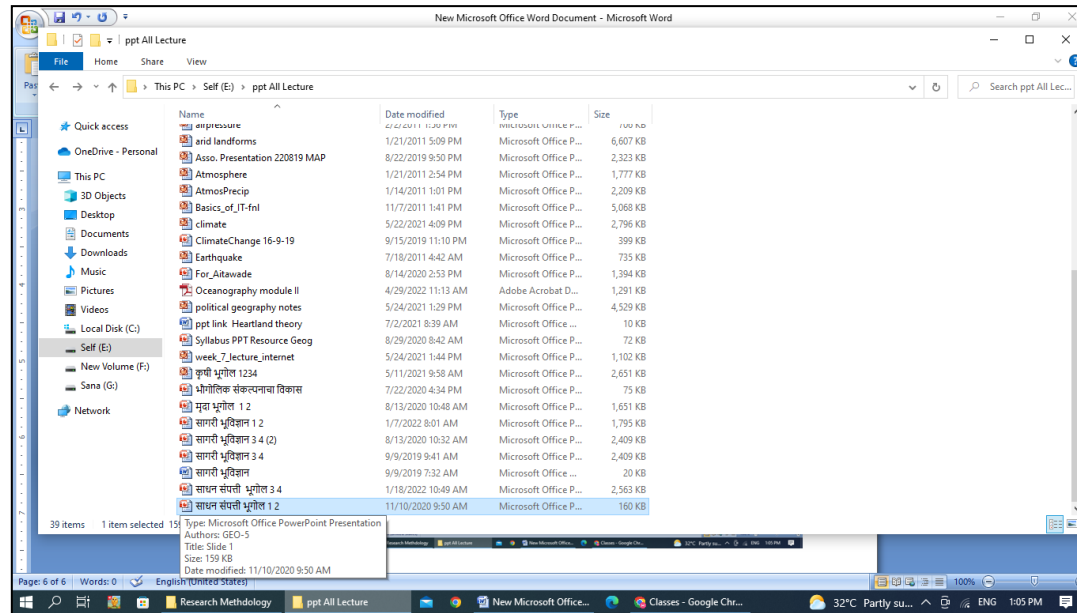

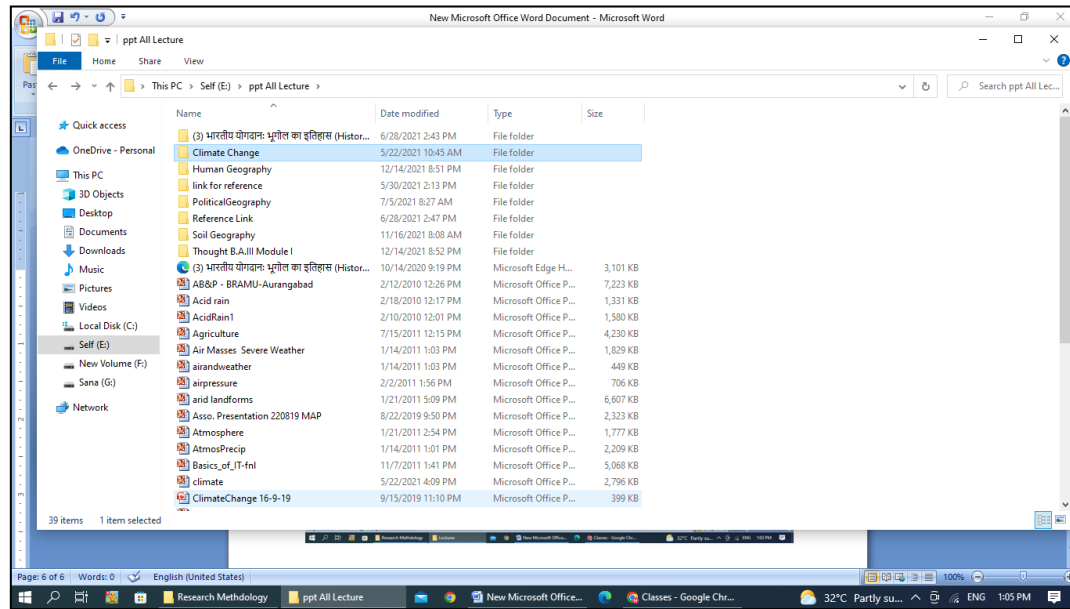

- B.Sc.I 2021-22**  
Semester I and II
- B.A.III 2021-22**  
Semester V and VI
- B.A.II 2021-22**  
Semester III and IV
- B.A.I 2021-22**  
Semester I and II

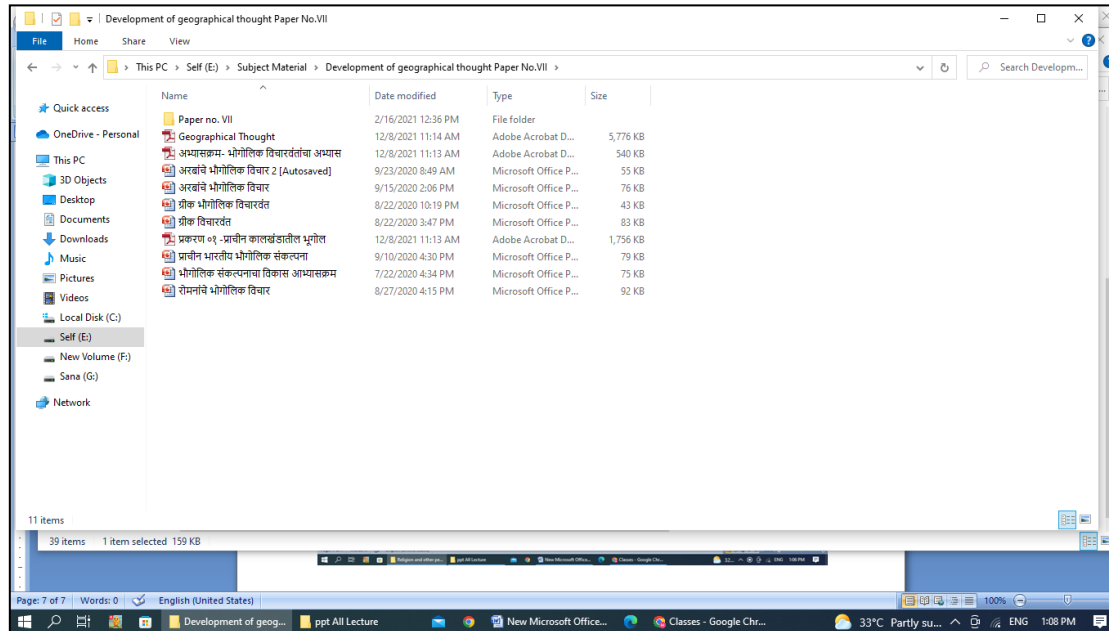

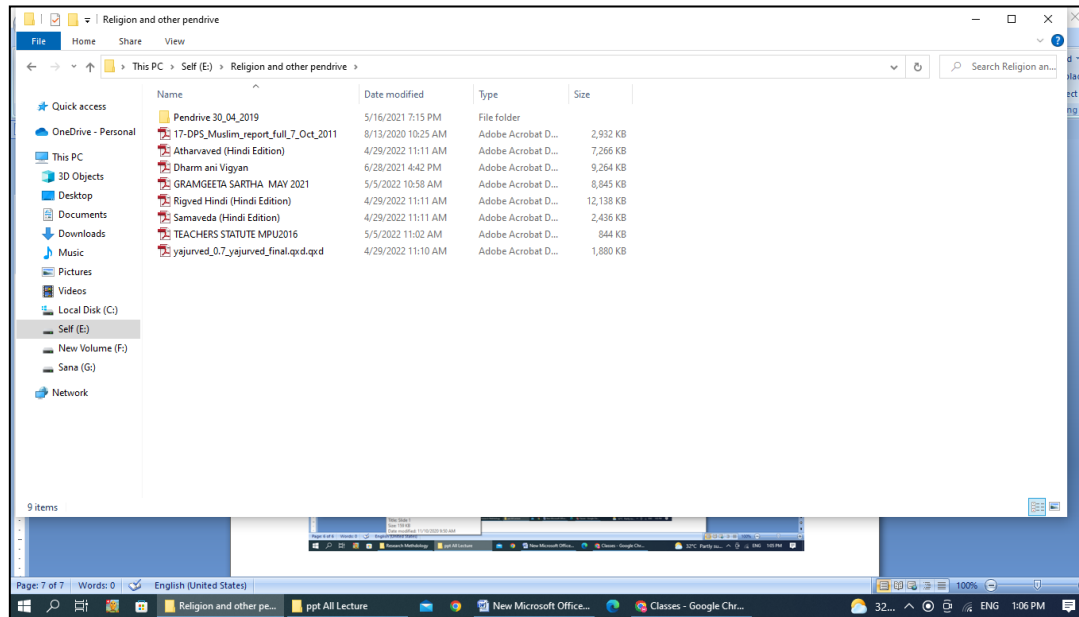

Each class card also includes a small icon of a pencil and paper, and a bottom section with a line graph icon and a folder icon. The Windows taskbar at the bottom of the screen shows several open applications, including 'Research Methodology', 'Self (E)', 'ppt All Lecture', and 'Classes - Google Chr...'. The system tray on the right indicates the language is 'ENG' and the time is '12:58 PM'.

### International Ozone Day 2022 (आंतरराष्ट्रीय ओझोन दिन- २०२२)

नमस्कार मित्रांनो,  
काल १६ सप्टेंबर, २०२२ या दिवशी संपूर्ण जगामध्ये जागतिक ओझोन दिन म्हणून साजरा केला जातो. ओझोन वायू वातावरणाच्या साधारणपणे १५ ते ४५ किमी या उंचीवर अतिशय जास्त घनतेत आढळून येतो. ओझोनच्या अस्तित्वामुळे सूर्यापासून येणाऱ्या अतिनील किरणापासून पृथ्वीचे संरक्षण होते. मानवाच्या काही क्रियांमुळे ओझोन थराचा क्षय होत आहे. यामुळे संपूर्ण जग धोक्यात येऊ शकते. याबाबतचा इशारा देऊन ओझोनचे संरक्षण करणेसाठी हा दिवस सन १९९४ पासून जागतिक ओझोन दिन म्हणून साजरा केला जातो. याचाच एक भाग म्हणून ओझोनला समजून घेणे व त्याचे संवर्धन होण्याच्या दृष्टीने आपण भूगोल अभ्यासक म्हणून ओझोनला समाजाने व त्याचे महत्व समाजापर्यंत पोहचवणे यासाठी भूगोलशास्त्र विभागामार्फत प्रश्रावली निर्माण केली आहे. आपण प्रश्रावली सोडवावी आणि आपल्या इतर मित्रांना याबाबत माहिती देऊन त्यांनाही या प्रश्नमंजुषेमध्ये सहभागी होण्याचे आवाहन करावे. धन्यवाद.

### 2.3.2 Report on use of ICT

#### Mrs. Renuka Anil Pawar

The ICT (Information and Communication Technology) is the modern method of learning by students in the education system. It is used worldwide by students and teachers for understanding every aspect of education nowadays. ICT includes computers, the internet, and electronic delivery systems. I conduct the lectures by using Powerpoint Presentations on LCD projectors so that students can understand more clearly by watching the actual images and photographs of any concerned topic. Usually, I Show Videos of topics, practical procedures, and several concepts to make students understand these aspects related to any theory or practical. The videos, notes sent on WhatsApp groups. The links to my Whatsapp groups are as follows.

Sr. No.	Class	Link to Whatsapp group
1	B. Sc. I	<a href="https://chat.whatsapp.com/BEjKjqI90zI7N5PRCkMmM0">https://chat.whatsapp.com/BEjKjqI90zI7N5PRCkMmM0</a>

3	B. Sc. III	<a href="https://chat.whatsapp.com/E59TCjyNhD5b1VTOLyPTC">https://chat.whatsapp.com/E59TCjyNhD5b1VTOLyPTC</a>

The messages for lectures, notes, notices, etc. were sent on these WhatsApp groups. This was only possible because of ICT. For online practicals, videos were shared or links to the videos on YouTube were given. Notes of the taught topic were sent on Google Classroom. For the evaluation, tests were conducted by using Google forms.

#### Dr. Chandrakant Balu Mane

For a better understanding of the chemistry concepts, I conduct the lectures by using PowerPoint Presentations on an LCD projector. Frequently, I Show Videos of subject topics, practical demos (procedures), and various concepts related to theory and practicals. The PowerPoint presentations were shared on the Zoom and Google Meet platforms. For online practicals, videos were shared or links to the videos on YouTube were made available for students. Notes of the taught topic were sent on Google Classroom. For the evaluation, Assignments were assigned on Google meet. And quizzes were conducted using Google forms.

During the lockdown period, offline classes were prohibited, in this pandemic, online lectures were conducted through Zoom and Google Meet platforms to complete the syllabus. The link for online lectures I sent on departmental WhatsApp groups.

#### Report on use of ICT (2021-22)

**Mr. D. G. Jagtap**

The ICT (Information and Communication Technology) is the modern method of learning by students in the education system. It is used worldwide by students and teachers for understanding every aspect of education nowadays. ICT includes computers, the internet, and electronic delivery systems. I conduct the lectures by using Power point Presentations on LCD projectors so that students can understand more clearly by watching the actual images and photographs of any concerned topic. Usually, I Show Videos of topics, practical procedures, and several concepts to make students understand these aspects related to any theory or practical. I worked from home during the lockdown period and conducted lectures from home. Lectures were conducted on Zoom and Google Meet platforms. The link for online lectures I sent on Whats app groups. The links to my Whats app groups are as follows.

Sr. No.	Class	Link to Whats app group (Botany Department)

The messages for lectures, notes, notices, etc. were sent on these Whats app groups. The Power Point presentations were shared in the Zoom and Google Meet. This was only possible because of ICT. For online practicals, videos were shared or links to the videos on YouTube were given. Notes of the taught topic were sent on Google Classroom. For the evaluation, tests were conducted by using Google forms.

## Dr. Kranti A. Patil

For a better understanding of the Botanical concepts, I conduct the lectures by using Power Point Presentations on an LCD projector. Frequently, I Show Videos of subject topics, practical demos (procedures), and various concepts related to theory and practicals. The Power Point presentations were shared on the Zoom and Google Meet platforms. For online practicals, videos were shared or links to the videos on YouTube were made available for students. Notes of the taught topic were sent on Google Classroom. For the evaluation, Assignments were assigned on Google meet.

During the lockdown period, offline classes were prohibited; in this pandemic, online lectures were conducted through Zoom and Google Meet platforms to complete the syllabus. The link for online lectures I sent on departmental Whats app groups.

### Use of ICT

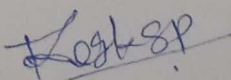

Information and Communication play an essential role for every student in their education; the purposes of ICT for students are to enable them to acquire the skills that needed for the future higher studies or the digital world, which then help them to easily get a job in future. Besides, the critical thinking and analytic skill are needed for students in their future.

Department use ICT with the purpose to promote those thinking and skills of students by self developing. Thus, student will no longer depends on the teacher anymore as it would transform the classroom environment from teacher- centric to student-centric learning. Department provides computer access to the students with Internet facility for their educational purposes. Students were free to access the internet for study purposes, project work and research work.

Firstly, independent access for the students to their education can be improved by the computer. Secondly, enable the student who needs a special educational to accomplish working task at their own pace. In addition, with the help of ICT, students can communicate more easily for those who with profound and multiple learning difficulties. Furthermore, students can be motivated to use the internet

ICT has the ability to connect the things that learned in the classroom to contexts that familiar to the students. For instance, through the videos and video clips observe the scientist working in environment which they cannot have access. This method helps students to visualize the concepts that had learned to apply in real situations. Department organized video lectures with the use of LCD projectors.

With the help of ICT, the process of teaching by the teachers to students and the learning process of students will become more advanced and effective.
