Department of Commerce

Report of Mentor-Mentee (2023-24)

The department of Commerce is focusing on overall development of the students. To achieve this target departmental mentors are always trying their level best. As a part of this we were implemented Mentor-Mentee programme under the supervision and guidance of the Principal. During the academic period 2023-24 Departmental mentors had been counseled, aware, guided and supported nearly mentees according to their needs and demands of problem.

Most of the students of department belongs to rural areas and have some particular problems as compare to urban students. Considering all these facts, department of **Commerce** has observed following common problems:

Economic Problem:

The majority mentees come from agricultural and allied background and have basic economic problem. The mentees are frequently facing economic issues. To overcome this problem our college started Earn and Learn scheme. With the help of this scheme number of students completing their course.

Family Problem:

The department has nearly 90 percent girl students. They are continuously under the pressure of social, cultural and family customs and traditions. The problems like marriage, post-graduation or other courses, attendance, family responsibility etc. Our mentors were continuously giving guidelines to their mentees. We are counseling them according to their problems. Beside this mentors had telephonic

contact to their parents and counseling them. No doubt it is a major problem, our department has resolved only 30-40 per cent such issues.

Academic Problem:

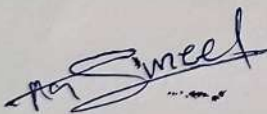

It is common problem among the mentees and it includes syllabus, nature of examination, notes, study material, writing skills regarding project and tour report, departmental courses and other courses, how to study, seminar and group discussion preparation etc. Considering above issues our faculties have been provided necessary guidance, physical support according to their demand.

Career Problem:

The mentees were not aware about the current situation regarding study material, advanced applied courses, job opportunities in various sectors etc. The mentors were guided them on their particular problem and at departmental level we were organized career opportunities programmers and short term certificate courses in each academic year.

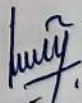

Other Problems:

The other problems include admission process, choice of courses, soft and analytical skills, practical work etc. The mentors of the department had been provided valuable guidance regarding to admission and choice of courses as well as provided soft and analytical skills. As a part of society such mentees were prepared for accepting challenges and issues.

Department of Commerce

Report of Mentor-Mentee (2023-24)

The department of Commerce is focusing on overall development of the students. To achieve this target departmental mentors are always trying their level best. As a part of this we were implemented Mentor-Mentee programme under the supervision and guidance of the Principal. During the academic period 2023-24 Departmental mentors had been counseled, aware, guided and supported nearly mentees according to their needs and demands of problem.

Most of the students of department belongs to rural areas and have some particular problems as compare to urban students. Considering all these facts, department of **Commerce** has observed following common problems:

Economic Problem:

The majority mentees come from agricultural and allied background and have basic economic problem. The mentees are frequently facing economic issues. To overcome this problem our college started Earn and Learn scheme. With the help of this scheme number of students completing their course.

Family Problem:

The department has nearly 90 percent girl students. They are continuously under the pressure of social, cultural and family customs and traditions. The problems like marriage, post-graduation or other courses, attendance, family responsibility etc. Our mentors were continuously giving guidelines to their mentees. We are counseling them according to their problems. Beside this mentors had telephonic

contact to their parents and counseling them. No doubt it is a major problem, our department has resolved only 30-40 per cent such issues.

Academic Problem:

It is common problem among the mentees and it includes syllabus, nature of examination, notes, study material, writing skills regarding project and tour report, departmental courses and other courses, how to study, seminar and group discussion preparation etc. Considering above issues our faculties have been provided necessary guidance, physical support according to their demand.

Career Problem:

The mentees were not aware about the current situation regarding study material, advanced applied courses, job opportunities in various sectors etc. The mentors were guided them on their particular problem and at departmental level we were organized career opportunities programmers and short term certificate courses in each academic year.

Other Problems:

The other problems include admission process, choice of courses, soft and analytical skills, practical work etc. The mentors of the department had been provided valuable guidance regarding to admission and choice of courses as well as provided soft and analytical skills. As a part of society such mentees were prepared for accepting challenges and issues.

Department of Commerce

Report of Mentor-Mentee (2023-24)

The department of Commerce is focusing on overall development of the students. To achieve this target departmental mentors are always trying their level best. As a part of this we were implemented Mentor-Mentee programme under the supervision and guidance of the Principal. During the academic period 2023-24 Departmental mentors had been counseled, aware, guided and supported nearly mentees according to their needs and demands of problem.

Most of the students of department belongs to rural areas and have some particular problems as compare to urban students. Considering all these facts, department of **Commerce** has observed following common problems:

Economic Problem:

The majority mentees come from agricultural and allied background and have basic economic problem. The mentees are frequently facing economic issues. To overcome this problem our college started Earn and Learn scheme. With the help of this scheme number of students completing their course.

Family Problem:

The department has nearly 90 percent girl students. They are continuously under the pressure of social, cultural and family customs and traditions. The problems like marriage, post-graduation or other courses, attendance, family responsibility etc. Our mentors were continuously giving guidelines to their mentees. We are counseling them according to their problems. Beside this mentors had telephonic

contact to their parents and counseling them. No doubt it is a major problem, our department has resolved only 30-40 per cent such issues.

Academic Problem:

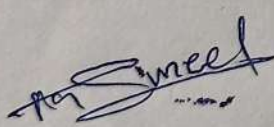

It is common problem among the mentees and it includes syllabus, nature of examination, notes, study material, writing skills regarding project and tour report, departmental courses and other courses, how to study, seminar and group discussion preparation etc. Considering above issues our faculties have been provided necessary guidance, physical support according to their demand.

Career Problem:

The mentees were not aware about the current situation regarding study material, advanced applied courses, job opportunities in various sectors etc. The mentors were guided them on their particular problem and at departmental level we were organized career opportunities programmers and short term certificate courses in each academic year.

Other Problems:

The other problems include admission process, choice of courses, soft and analytical skills, practical work etc. The mentors of the department had been provided valuable guidance regarding to admission and choice of courses as well as provided soft and analytical skills. As a part of society such mentees were prepared for accepting challenges and issues.

Department of Geography

Report of Mentor-Mentee (2022-23)

The department of Geography is focusing on overall development of the students. To achieve this target departmental mentors are always trying their level best. As a part of this we were implemented Mentor-Mentee programme under the supervision and guidance of the Principal. During the academic period 2022-23, departmental mentors had been encouraged, aware, guided, and economically supported nearly 54 mentees according to their needs and demands of problem.

Most of the students of department belongs to rural areas and have some particular problems as compare to urban students. Considering all these facts, department of Geography has observed following common problems:

1. Economic Problem:

The majority mentees come from agricultural and allied background and have basic economic problem like various fees due to its family income. The mentees are frequently facing economic issues.

To overcome this problem our faculty provided economic support to needy mentees. It is observed that all economic supported mentees returned concern amount according to their economic conditions.

2. Family Problem:

The college as well as department have more than 60 percent girl students. They are continuously under the pressure of social, cultural and social customs and traditions. The problems like marriage, post graduation or other courses, attendance, family responsibility etc.

Our mentors were continuous in touch with such mentees. We had counselling them according to their problems. Beside this mentors had telephonic contact to their parents and counselling them.

3. Academic Problem:

It is common problem among the mentees and it includes syllabus, nature of examination, notes, study material, writing skills regarding project and tour report,

departmental courses and other courses, how to study, seminar and group discussion preparation etc.

Considering above issues our faculties have been provided necessary guidance, physical support according to their demand.

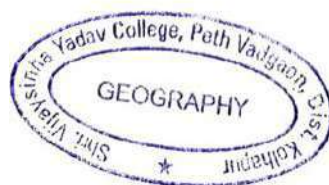

4. Career Problem:

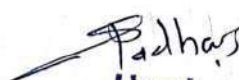

The mentees were not aware about the current situation regarding study material, advanced applied courses, job opportunities in various sectors etc.

The mentors were guided them on their particular problem and at departmental level we were organized career opportunities programmes.

Other Problems:

The other problems include admission process, choice of courses, soft and analytical skills. The mentors of the department had been provided valuable guidance regarding to admission and choice of courses as well as provided soft and analytical skills.

Department of Chemistry
Report of Mentor-Mentee (2023-24)

The department of Chemistry is focusing on overall development of the students. To achieve this target departmental mentors are always trying their level best. As a part of this we were implemented Mentor-Mentee programme under the supervision and guidance of the Principal. During the academic period 2023-24, departmental mentors had been counselled, aware, guided and economically supported nearly 85 mentees according to their needs and demands of problem.

Most of the students of department belongs to rural areas and have some particular problems as compare to urban students. Considering all these facts, department of Chemistry has observed following common problems:

1. Economic Problem:

The majority mentees come from agricultural and allied background and have basic economic problem. The mentees are frequently facing economic issues.

To overcome this problem our college started Earn and Learn scheme. With the help of this scheme number of students completing their course.

2. Family Problem:

The college as well as department have nearly 60 percent girl students. They are continuously under the pressure of social, cultural and family customs and traditions. The problems like marriage, post graduation or other courses, attendance, family responsibility etc.

Our mentors were continuously giving guidelines to their mentees. We are counselling them according to their problems. Beside this mentors had telephonic contact to their parents and counselling them. No doubt it is a major problem, our department has resolved only 25 to 30 per cent such issues.

3. Academic Problem:

It is common problem among the mentees and it includes syllabus, nature of examination, notes, study material, writing skills regarding project and tour report, departmental courses and other courses, how to study, seminar and group discussion preparation etc.

Considering above issues our faculties have been provided necessary guidance, physical support according to their demand.

4. Career Problem:

The mentees were not aware about the current situation regarding study material, advanced applied courses, job opportunities in various sectors etc.

The mentors were guided them on their particular problem and at departmental level we were organized career opportunities programmes and short term certificate courses in each academic year.

5. Other Problems:

The other problems include admission process, choice of courses, soft and analytical skills, practical work etc.

The mentors of the department had been provided valuable guidance regarding to admission and choice of courses as well as provided soft and analytical skills. As a part of society such mentees were prepared for accepting challenges and issues.

Mentor-Mentee scheme

Year: 2023-24

Shri Vijaysinha Yadav College, Peth Vadgaon is working to assist and guide the students in the college to improve their academic and professional careers and to contribute to their personality development. Mentor-Mentee is a very effective Scheme aimed at bridging the gap between mentor and mentee. Students may encounter many difficulties during their graduation program and may face academic challenges to adjust with, to address such issues and enable them to excel academically and professionally to the best of their ability, a mentoring program is being implemented for college students. We also provide counseling to the students by paying personal attention in the college premises, giving guidance and personal visits to the students through regular communication. We are guiding them through personal counseling about career opportunities available in future, to succeed in university exams. We have been helping students about curriculum, fees, college admissions process and scholarships. The scheme has been very successful in bridging the gap between teachers and students. Our institution goal regarding students is to get the right education for them and take the right steps of them towards their careers.

Objectives:

1. To reduce the distance between the guide (mentor) and the student (mentee).
2. To ensure quality performance of college students.
3. To achieve overall development of students by solving their problems
4. To motivate students for undergraduate and postgraduate education and competitive examinations.
5. To discuss issues related to stress with students.
6. To regulate academic participation and evaluating outcomes.

Mentor-Mentee scheme Report

Year: 2023-24

Students of Shri Vijaysinha Yadav College, Peth Vadgaon were assisted and guided with a view to improve their academic and professional careers and contribute to their personality development. This is a very effective Scheme that bridges the gap between mentors and mentees. The problem faced by the students during their graduation has been solved properly with proper guidance and suggestions. Through this scheme, a mentoring program was implemented for the college students, to address their problems and enable them to excel academically and professionally according to their abilities.

Outcomes of Mentor-Mentee:

1. This scheme has helped students to face academic challenges and to adjust with the challenges.
2. Through this scheme students were guided on the availability of future opportunities and the preparations that need to be made for it.
3. Students made aware about the syllabus of various competitive examinations and the nature of such competitive examinations.
4. Through the scheme, the students got basic knowledge of various professions.
5. Many problems faced by the students in the college were solved.

Department of Microbiology

Report of Mentor –Mentee 2023-2024

The department of microbiology is focusing on overall development of students. To achieve this target departmental mentors are always trying their level best. As a part of this we were implement mentor –mentee program under the supervision and guidance of Principal. During the academic year 2018-19. Departmental Mentors had been counseled, aware, guided and support and supported 32 mentees according to their needs and demands of problem.

Most of students of department belongs to rural area have some particular problems as compare to urban students ,Considering all the facts department of Microbiology has observe some common problem :

1. Economic Problem

The majority mentee comes from agriculture and allied background and have basic economic problem .The mentee frequently facing economic issue.

To overcome this problem our college start earns and learn scheme. With help of scheme number of students completing their course.

2. Family Problem

The colleges as well as department have nearly 60%girl's students. They are continuously under pressure of social, culture, and family customs and traditions. The problem like marriage, post graduation or other course. , attendance, family responsibility.

Our mentors were continuously give guidelines to mentee. We are counseling them according to their problem. Beside this mentors had telephonic contact to their parents and counseling them No doubt it is a major problem .our department had resolved only 25-30 % such issues.

3. Academic Problem

It is common problem among the mentees and it includes syllabus, nature of examination .notes, study material, writing skills regarding project and tour report, departmental course and other activity, how to study, seminar and group discussion, preparation etc.

Considering above issue our faculties has been providing necessary guidance, physical support according to their demand.

4. Career Problem

The mentees were not aware about the current situation regarding study materials, advance applied course, job opportunities in varies sectors.

The mentors were guided them on their particular problem and departmental level we were organized career opportunities programmes and short term certificate in each academic year .

5. Other Problem

The other problems include admission process, choice of course, soft and analytical skills, practical work etc.

The mentors of the department had been provided valuable guidance regarding to admission and choice of courses as well as provide soft analytical skills. As a part of society such mentees were prepared for accepting challenges and issues.

2.3.3 Mentor –Mentee for 2023-24
