## CRITERION VII

### INSTITUTIONAL VALUES AND BEST PRACTICES

#### 7.2.1: Best practices successfully implemented by the Institution

**Response:**

**Best Practices:**

- 1) ONE STUDENT ONE PLANT**
- 2) DIGITAL LITERACY**

## **BEST PRACTICES**

### **1. ONE STUDENT ONE PLANT**

#### **Goals**

Environmental awareness has become part of our college culture and the college conducts environmental awareness activities since the establishment. One student One plant is a global movement with an ambitious goal to fight the climate crisis by planting trees around the world and establish green Society of India to be a healthy world.

One student one plant is an initiative in line of a green and healthy environment as a helping hand to this noble initiative and for making the college students socially responsible institution carry out a plantation drive. All faculty member staff administration and management of the institution were also planting at least one tree themselves.

#### **The context**

One student one plant will educate and encourage the student about the benefits of planting trees for our planet. College student will be involved in searching a tree for the preservation of environment in an eco-friendly manner.

One student one plant is that each student should plant one tree and also nurture that tree.

#### **Practice**

At the beginning of every year, we announced the scheme of one student one plant. Under this scheme, we motivate students to donate a plant to college. Students become climate ambassadors and pass on their knowledge and encourage

other students to take on social responsibility and shape their future. In academic year 2016-2017, our most of the students donated plants to the college.

The collected plants were distributed among the students. The students prepared plant by filling up organic manure and soil. Students have planted them with a variety like Mango, Guava, Jackfruit, Neem, Gulmohar, Bamboo etc. These plants have been planted in different areas from 2016 to till date.

The college has made a conscious effort to bring unutilized land under cultivation of medicinal, ornamental and conservation of local plants as well as other productive plants through NSS, faculty and college students.

### **Evidences of success**

Department of physics has organized tree plantation programme under this practice. We planted some trees in our college campus. Department of Botany and NSS have also organized tree plantation programme at barren land at various villages in the neighborhood. Through this program, we planted trees and made a promise that we will take care of every tree we have planted.

### **Future plan**

On the occasion of World Environment Day, college will distribute various plants free of cost to the students and society. It will be useful to educate and encourage the people about environment protection through plantation.

We have to aware the younger generation to plant more and more trees. With this in mind, we have advised students about the benefits of planting trees.

## Photo plates

Department of Chemistry donated plants to the college

Department of Physics planted trees in the college campus

Volunteers of National Service Scheme donated plants to the college

Department of Sociology donated plants to the college

On 06<sup>th</sup> Jan. 2022, under the best practice “One Student One Plant” we distributed Vermicompost to 43 students (1 kg per student) for better growth of trees planted by student at their home town. On this occasion Prin. Dr. V. R. Chavan, Dr. V.N. Sahadev, Dr. R.H. Atigre, Dr. Bhosale & Miss Pradnya Patil were present.

## National Service Scheme planted tree

## Students planted trees at their residence and farms

## Report of "Conservation of Plants"

Thursday, 18 April, 2022 at 7.30 am to 9.30 am

-----

Name of the Activity	: Conservation of Tree Plants
Date and Time of activity conducted	: 18 April, 2022, at 7.30 am to 9.30 am
Nature of Activity	: Watering to tree plants
Target Group	: B. Sc. Part- III (Microbiology) Students and Teachers
Number of Participants	: 30 students + 01 Faculty = 31
Name of Organizer	: Department of Microbiology

### Short Description of Conducted Activity:

Department of Microbiology, Shri Vijaysinha Yadav College, Peth Vadgaon worked in Conservation of Tree Plants at Mahalaxmi Biodiversity Park, Tasgaon, Maharashtra-416122 on 18<sup>st</sup> April, 2022, at 7.30 am to 9.30 am. Natural vegetation is a valuable natural resource. It is an important factor to maintaining environmental balance and it is necessary, more than 33 per cent out of total geographical area should be under forest cover. But last few decades proportion of forest is decreasing vary rapidly not only in Maharashtra but also in India. The current scenario of the Kolhapur district and Hatkanangale tehsil showed only 18.47 and 2.35 per cent forested land. As concern to Peth Vadgaon, it has no forest area. Recently as per Govt. directions, 6.52 hectare area has been developed as an 'Oxygen Park' with new endemic species plantation. Considering all these facts our Microbiology department has contributed to sustain these tree plants through watering in hot

summer season. 30 students and 01 departmental faculties participated in watering the plants on Thursday, 18<sup>st</sup> April, 2022 from 7.30 am to 9.30am.

**PO's and PSO's covered:**

**PO's:**

- 1) To aware students about forest resources and environment.
- 2) To sustain new planted tree species through watering.

**PSO's:**

- 1) The students are aware about forest resources and environment.
- 2) The new planted tree species are sustained through watering

वाणिज्य विभाग

"ऑक्सीजन पार्क मधील रोपट्यांची व्यवस्था

" 22 एप्रिल 2022 वेळ सकाळी 7 30."

मानवाला निसर्गाच्या समतोलालाचे महत्त्व पूर्वीपासूनच असले तरी अलीकडील काळामध्ये भौतिक विकास करीत असताना, निसर्गाचा समतोल याकडे लक्ष देणे गरजेचे वाटू लागले असे असले तरी सर्व क्षेत्रातील घटकांनी निसर्गाचा समतोल राखण्यासाठी कमी-जास्त प्रमाणात प्रयत्न सुरु झाले. कोल्हापूर जिल्हयामधील हातकलंगड तालुक्यातील पेठ वडगाव मधील सार्वजनिक तळ्याच्या परिसरामध्ये 6.52% हेक्टर परिसर हा ऑक्सीजन पार्क नावाने तयार केलेल्या परिसरामध्ये श्री.विजयसिंह यादव महाविद्यालय पेठ वडगाव च्या वाणिज्य विभागातील 13 विद्यार्थी आणि दोन सहाय्यक शिक्षक यांच्या समवेत नवीन रोपांना पाणी देणे आणि रोपांच्या वाफ्यातील स्वच्छता केली.

उद्देश

- 1- विद्यार्थ्यांना नवीन रोपांची काळजी कशी घ्यावी याबाबत माहिती मिळाली.
- 2- विद्यार्थ्यांना पर्यावरणाचा समतोल व विकासाचे महत्त्व समजले.

'Conservation of Tree Plants'

*Monday, 18<sup>th</sup> April, 2022 at 7.30 am to onward*

-----

Name of the Activity	: Conservation of Tree Plants
Date and Time of activity conducted	: 18 <sup>th</sup> April, 2022, at 7.30 am to onward
Nature of Activity	: Watering to tree plants
Target Group	: B. A. Part- III (Geography) Students and Teachers
Number of Participants	: 10 students + 03 Faculty = 13
Name of Organizer	: Department of Geography

**Short Description of Conducted Activity:**

Natural vegetation is a valuable natural resource. It is an important factor to maintaining environmental balance and it is necessary, more than 33 per cent out of total geographical area should be under forest cover. But last few decades proportion of forest is decreasing vary rapidly not only in Maharashtra but also in India. The current scenario of the Kolhapur district and Hatkanangale tehsil showed only 18.47 and 2.35 per cent forested land. As concern to Peth Vadgaon, it has no forest area. Recently as per Govt. directions, 6.52 hectare area has been developed as an 'Oxygen Park' with new endemic species plantation (Fig. 1). Considering all these facts our Geography department has contributed to sustain these tree plants through watering in hot summer season. 10 students and 03 departmental faculties participated in watering the plants on Monday, 18<sup>th</sup> April, 2022 from 7.30 am to onward. Out of 6.52 hectare area, nearly 0.31 hectare tree plantation area has been watered.

**PO's and PSO's covered:**

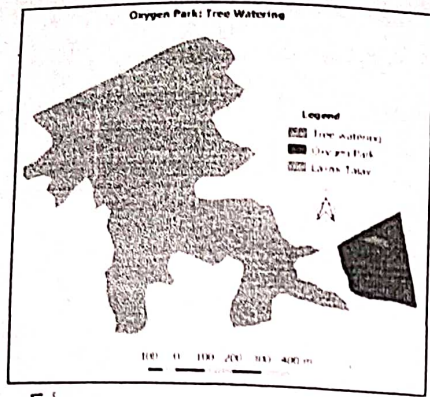

**PO's:**

- 1) To aware students about forest resources and environment.
- 2) To sustain new planted tree species through watering.

**PSO's:**

- 1) The students are aware about forest resources and environment.
- 2) The new planted tree species are sustained through watering.

## **2. Digital Literacy**

### **Goals**

Digital literacy is the most important lifelong learning tool. With the increased importance of technology in society, digital literacy is gaining recognition as the most valuable tool for lifelong learning.

The influence of technology on education is the main reason to adopt the best digital literacy practice in our institutions.

Digital literacy is one component of being a digital citizen. Institute tries to educate our staff, students and also the rural community to become digital citizen. Digital technology allows people to interact and communicate with family and society on a regular basis.

### **Context**

Digital literacy is the set of competencies required for full participation in a knowledge society. It includes knowledge, skills and behaviors involving the effective use of digital devices such as smart phones, tablets, laptops and desktop PC etc. for the purpose of communication, expression and collaboration.

Digital literacy is the first step towards paperless work which encourages the environment friendly behavior of students.

### **Practice**

At the beginning of the year 2016-17, we conducted Poster Presentation entitled 'Scope of IT' for the students. Total 51 students were participated in this competition in three different themes such as a Scope of IT, Wireless Technology & Latest Technology. The competition was cordially organized by Research cell and Department of Computer Science.

In the year 2017-18, various events and workshops were organized for the students as well as teachers that covered the complete information about digital technology.

The department of computer science organized a 'MORYA EVENT' on 30<sup>th</sup> August 2017. A MORYA EVENT was a gaming competition. Two types of competition were there. GAME OF RACING was in the morning session for students and SPEED OF TYPING for students, teaching and non-teaching staff.

This workshop emphasized to aware the students about basic knowledge of computer and internet to connect them with the flow of the world.

In the year 2018-19, 'MORYA EVENT' was a Poster presentation, Quiz, Coding Master. Total 200 students were participated. These events are literate to students, teaching staff, and non-teaching staff about digital knowledge. In this year, Special drive of digital awareness was conducted for the women of rural area (housewives). They were also trained for how to use a smart phone.

Students should access online videos, course materials, assignments for the betterment of their career. Therefore we used Google classroom for interacting with students.

In the year 2019-20, 'A MORYA EVENT' included PPT presentation, Go-google and Coding Master. Total 180 students were participated from various colleges such as DKASC Ichalkaranji, Dr. B. A. College Peth Vadgaon, Ashokrao Mane Polytechnic, Hon. ADC Hatkanangale etc. In PPT presentation competition 15 students, Coding Master competition 140 and in Go-google competition 25 students were also participated.

In this year, we conducted 'Orientation programme on E-content for teachers on 05<sup>th</sup> Feb. 2020. Total 51 teachers were participated in this workshop. In this workshop different contents were given to the teachers such as Gmail, Google Classroom, Google Form, Google Site and Google Blogger. The aim of orientation

Programme was not only to guide teachers on use of E-content but also to help in becoming aware about their knowledge of digital field.

Department of Computer Science organized online college level MS Office Quiz dated 7<sup>th</sup> April 2020. This MS Office online Quiz was helpful for competitive exams for Bank PO, Clerk, SBI bank exams and SSC Exams and interviews. MS office questions and answers helped to improve computer knowledge.

Department of Computer Science and Internal Quality Assurance Cell organized Online National Level quiz on COVID-19 Awareness dated 18<sup>th</sup> March 2020. This Quiz aimed at preventing the spread of the disease and saving the precious life of people. In the academic year 2020-2021, Department of Computer Science organized seminar activity of online mode due to COVID-19 for B.Sc. III students under the valuable guidance of HoD Miss. S. M. Mohite. The seminars were supervised by Miss. P. S. Patil. Students nicely presented their topics on Google meet platform with power point presentations.

In the academic year 2020-2021, Department of Computer Science organized online college level Yoga awareness Quiz dated 21<sup>st</sup> June 2020. The aim of this Quiz was to help students stay fit and adopt a sustainable and active lifestyle at a young age.

On the occasion of Marathi Bhasha Din Dept of Computer Science presented Importance of the day through PPT. A group of ten students created video showing objectives and importance of a 'Matrubhasha Divas'. Paper documents of PPT and video of this function is attached.

Every student should be familiar to the online applications for the educational attainment. Therefore, the college tried to make all content of syllabus online by videos, course materials and assignments with the help of Google classroom, Edmodo and many other applications for interacting with students for multiple works.

## **Evidence of Success**

Students got complete information about computers. As a result, many students started using computers and smart phones for their study (e.g. Delivering seminars and presentations, sharing their documents etc). The teachers also used to communicate with the students and to circulate notes among them. All the students have been created their email Id. We have taken the feedbacks from the women's which we have trained with the use of smart phones that, they can use smart phones better than the past for their daily work (Netbanking, paytm, WhatsApp group etc).

Due to COVID-19 pandemic we only communicated with students virtually. Therefore, all programs have organized by online mode.

## **Problems encountered**

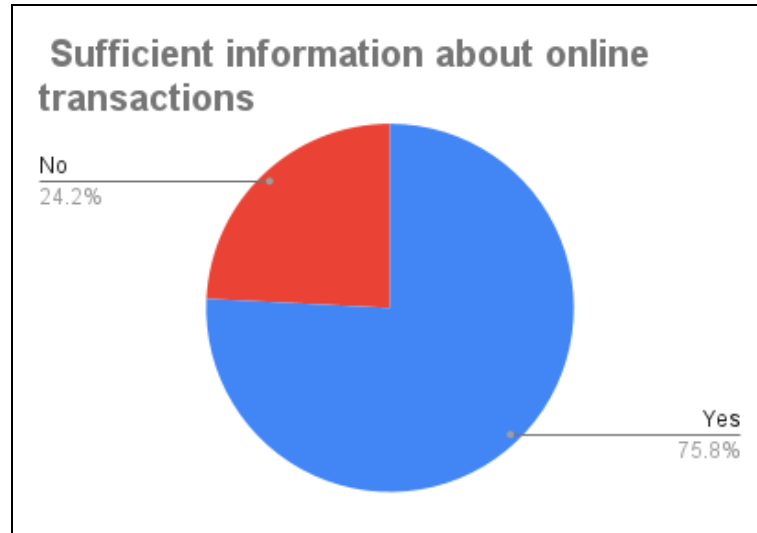

Students and rural community women with a “traditional” mindset find it is difficult to adopt; they need to accept new learning circumstances with an open mind and heart. So Change the attitude & technology literacy would help them to gain confidence in order to succeed in their courses with a positive vibe. In online mode communication problems are encountered.

## Analysis of Online Digital Literacy Survey

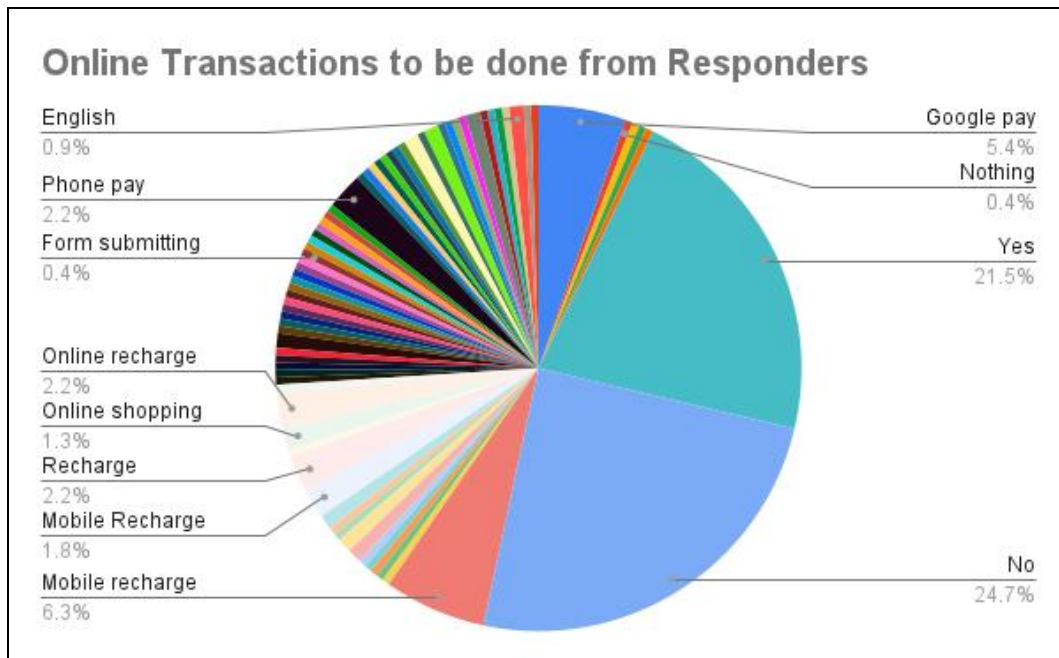

Link of the Google Form: <http://forms.gle/eA7QczRH2k5Z5GnW9>

1. Do the participants get the sufficient information of online transactions?

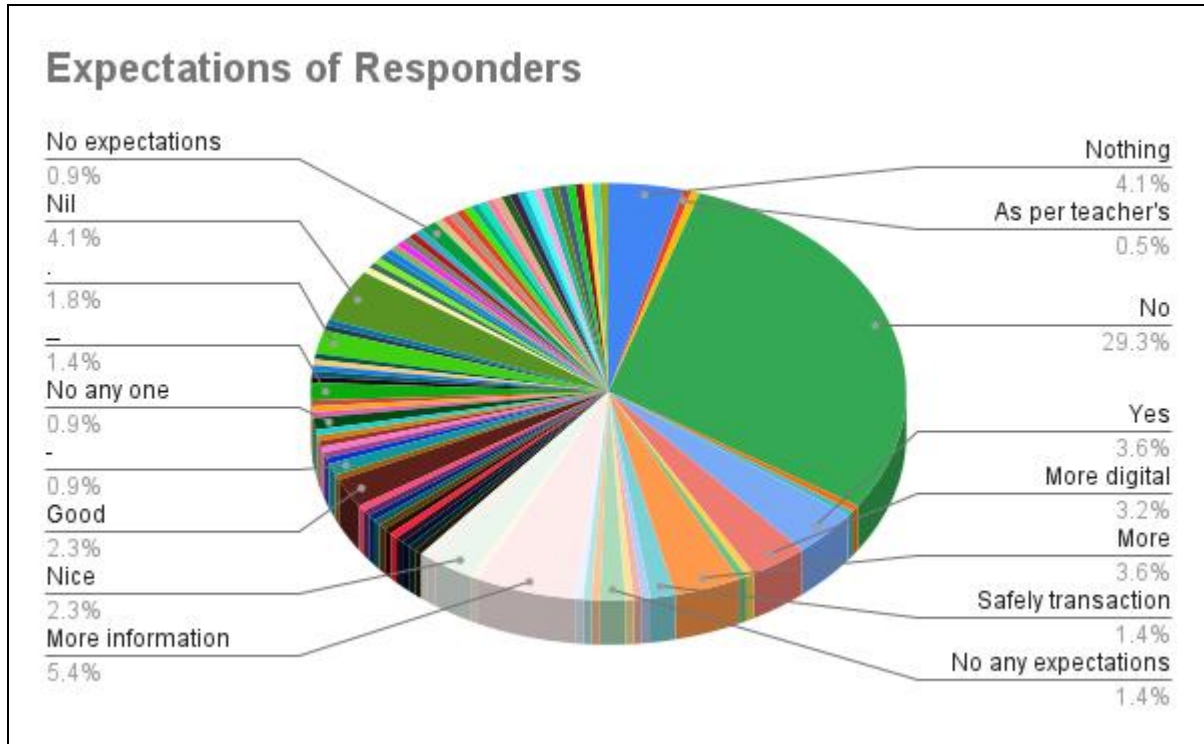

**Analysis:** majority of participants (75.8%) stated that they got sufficient information about online transactions.

2. Do the participants use the online transactions method for their daily work?

**Analysis:** majority responders stated that they use online transaction mode such as online shopping, recharge, phone pay, Google pay etc. for their daily life. 24.7% respondents are still out of online transaction process.

### 3. Expectation of Responders

**Analysis:** participants expected to aware them about fraud taking place during online transactions.
