

Shri Vijaysinha Yadav College, Peth Vadgaon

ICT Committee

ANNUAL REPORT

Academic Year 2025–26

1. Introduction

The ICT Committee of Shri Vijaysinha Yadav College, Peth Vadgaon, worked towards effective integration of Information and Communication Technology (ICT) in teaching, learning and academic activities during the academic year 2023–24. The committee encouraged all departments to use ICT-enabled teaching methods and conducted various initiatives to improve digital learning, ICT awareness and the effective utilization of available ICT facilities.

2. ICT Lectures and Activities by Departments

All departments actively participated in ICT-oriented teaching and activities. Faculty members conducted ICT-enabled lectures using PPT presentations, digital notes, educational videos, online resources, e-content and other digital tools. Departments also organized lectures, demonstrations, workshops and awareness activities to improve the digital skills of students.

- Departments conducted ICT-enabled lectures and demonstrations as part of regular teaching-learning activities.
- Faculty members used PowerPoint presentations, digital notes, educational videos and online reference materials.
- Departments encouraged students to use e-learning resources and digital platforms for academic purposes.
- ICT-based activities were conducted to create awareness about the effective use of technology in education.
- The committee encouraged departments to gradually make study materials and useful learning resources available online.

3. Steps Taken by the ICT Committee for Improvement

- Reviewed the existing ICT facilities and identified requirements for improvement.
- Ensured regular maintenance and proper use of computers, projectors, printers and other ICT equipment.
- Discussed improvement of internet connectivity and Wi-Fi facilities on the campus.
- Encouraged faculty members to adopt ICT-oriented teaching methods.
- Promoted the use of freely available digital tools and online learning resources.
- Encouraged cost-effective utilization of existing ICT infrastructure.
- Maintained records and documentation of ICT activities for institutional quality requirements.
- The ICT Committee suggested upgrading and replacing the outdated computers in the Computer Science Department. Accordingly, the department took the necessary steps and successfully replaced the computers, thereby improving the ICT infrastructure

4. ICT-Oriented Activities

Sr. No.	Area	Activities / Initiatives
1	Teaching-Learning	ICT-enabled lectures, PPTs, digital notes and online resources
2	Digital Learning	E-content, educational videos, online platforms and study materials
3	ICT Awareness	Lectures/programmes on safe and effective use of digital technology
4	Technical Improvement	Maintenance and proper utilization of computers, projectors, printers and network facilities
5	Student Development	ICT-oriented activities to improve students' digital skills and awareness.

5. Outcome

The year witnessed increased use of ICT in classroom teaching and departmental activities. Faculty and students became more familiar with digital learning resources, while the committee focused on better utilization and maintenance of existing ICT facilities.

6. Conclusion

The ICT Committee successfully coordinated ICT-related activities during the academic year 2023–24. The active participation of all departments helped to strengthen the use of technology in teaching and learning. The committee will continue to take practical and cost-effective measures for further improvement of ICT facilities and digital learning practices in the college.
